Prevent the Spread of Airborne Infections

A Patented Air Safety Process Utilizing HEPA Filtration and
Germicidal UV Disinfection to
Both Remove and Reduce Bacteria and Virus Exposure Risk to
Staff and Visitors

Portable Isolation Bed Medical Unit

Converts any room or open
space into an "isolation
room" in minutes. Wheel it
anywhere; it's always ready
for immediate use.

PICS Portable Isolation Containment System

Portable shelter provides
both positive and negative
pressure environments for
infectious and / or
noninfectious patients. A
SURGE CAPACITY solution.

Transport Isolation Wheelchair Medical Unit

Provides state-of-the-art
isolation on wheels. You can
safely move an infected
patient among an
unprotected population.

FASS HAZMAT - Mobile Containment

This portable unit eliminates
biohazards, neutralize odors
and treats contaminated
areas.

**All medical units surpass CDC
standards for isolating and
controlling airborne infections,
and are FDA approved and
OSHA compliant.**

**Manufactured by Failsafe Air
Safety Systems, Tonawanda, NY**
